

WE ALSO GO ONLINE!

Dear colleagues,

The International Congress in Japan will go online!

The Congress Organizing Committee has decided to offer **a part of** the Congress Program in live-stream, with the support of Tele'Drama International©.

If you cannot join in person our rich program of events and sessions, you will be able to attend the Keynotes Lectures and half of the Symposia online. Moreover, three experiential/educational/training seminars on day one will be offered fully hybrid (you will be able to interact from remote with people and conductors in Japan). And three fully hybrid workshops will offer you the opportunity of a hands-on experience with attendees in Sapporo. The schedule of online events will be updated and uploaded on the website: please consider the time difference.

The hybrid/live-stream events aim to **promote inclusion**:

1. An opportunity for everyone who is unable to travel to Japan but would still like to be part of the IAGP Congress experience, by joining from home.
2. A chance to support youth - the revenue from virtual participants will contribute to scholarships for students to attend virtually, allowing us to welcome them to our congress and organization.

As an online registrant, you will be able to also **present lectures/papers** from remote. Please submit your abstract at https://www.iagpsapporo2025.com/abstract_submission.html in one of the following themes:

Social Unconscious, Mentalization-based treatment, Organizational Group-work, Social Dreaming, Methods and Techniques in group therapy, Social and Collective Trauma, Life Cycle and Developmental ages.

You'll be presenting from home, in a Symposium with a Chair and some panelists in Sapporo and other presenters from remote.

Do not miss to share your case study, research, theoretical developments, clinical experiences with a rich audience of colleagues, both in Japan and online!

NOTE: We invite professionals to register even if they are unable to attend. Your registration will still open doors for students to participate.

Soon the fees for the online-Congress will be announced. In the meantime, start submitting your proposals and contact us for any further clarification on the presentations from remote (SPC-IAGP2025@iagp.com).

See you at the Congress!

Roberta Mineo & Kaoru Nishimura
Scientific Program co-Chairs

P.S. If you are a young professional, do not miss the opportunity to register for a fully online three-days course in group psychotherapies (one session will be hybrid/experiential from the Sapporo Congress): please contact SPC-IAGP2025@iagp.com
